Start
 Bristol Community School
 777 Elsbree Street
 Fall River, MA

This scenic ride starts from the highlands of Fall River and meanders through forests, mill towns, lakes and cranberry bogs. Its rolling hills will keep your heart at an elevated state, and after a cool coast near the waterfront in Fall River one can take a left up President Ave and return to the start.

The short ride avoids the worst of Fall River's hills (President Ave) giving a more knee friendly return to the start.

This ride has changed a bit through the years, adding the Industrial Park for everyone, and the longer rides return through Somerset. Ride revisions from Gil Peel, Rick Schwartz & Raul Silvia
