Fascinating ride on rolling, rural terrain - so simple you don't get arrows! Last year, this ride was not arrowed as an  
experiment, and weather conditions prevented riding on the first occasion and the repeat ride was sparsely attended.  
These were exactly the conditions that led to the experiment in not arrowing the ride. Such a success has led the club to  
repeat the process. Cue sheets and maps will be available at the start and as always, GPS files for this ride will be  
available on line, but the ride will not be arrowed.
